

We want to make sure that everyone's writing gets better and better.

TELL US!

We want to make sure that the children have the chance to tell us what we are doing well and what the school can do to be better.

We want to create a new school library that everyone will enjoy spending time in and choosing a book to read.

What are we doing to improve our school this year?

We want to make sure that girls do just as well in maths as boys!

We want everyone to be more active! We need you to tell us what you'd like to help you do this!

We want to use Zones of Regulation to help everyone manage themselves and their feelings.

We want to make sure that boys do just as well in reading as girls!

We're going to carry on making sure that the marking in children's books helps them to make good progress in their school work.

We want everyone to know what it is they are learning in every lesson.
